A glance at the Durwen range of products:

- Double pallet handler DPK-C
- Triple pallet handler DRPK-C
- 4/6 pallet handler MPG
- Load extending double pallet handler VDPK-C
- Fork clamp PGK, revolving DUZ
- Block clamp UVP and slip on arms
- Turning fork clamp DGK
- Pulp clamp PZK
- Bale clamp PBK
- Paper roll clamp PRK
- Appliance clamp UKK
- Pallet inverter PWK
- Mesh-box discharger DGE
- Fork positioner, clamp type ZVP
- Fork positioner, round bar type WZV
- Fork positioner, round bar type ZVR
- Fork positioner, round bar type ZVI
- Fork positioner, rotating type 360° DZV
- Fork positioner RZV
- Fork positioner PZV
- Double and triple sideshift DST / DRST
- KEG clamp
- telescopic forks TGZ
- Pusher fork SGS
- Load extender VGT
- 360° rotator DG
- Foam clamp USK
- Load stabiliser LH
- Quick change system SWV

KEG - CLAMP

INNOVATIVE – VERSATILE – DURABLE

KEG Clamp

The Durwen **KEG clamp** allows for the transport of KEG's without pallets. It is available with and without sideshift. The bolted tines provide stability and smooth operation. The telescopic load stabilizer is compatible with most industry standard locator boards and allows quick and safe transportation of the kegs. The unit provides good visibility for the operator.

Durwen provides factory trained engineers who can carry out the majority of on-site repairs.

To support our field engineers our service centre stocks a wide range of replacement spare parts which is in turn supplemented by speedy delivery of parts from the HQ in Germany and should on site repairs prove to be impractical we have the ability to provide a full workshop repair, re-engineering or modification service.
