

DURWEN BALE AND RECYCLING CLAMPS

THE OPTIMISED SOLUTION FOR A LARGE VARIETY OF APPLICATIONS

appliance clamp UKK-PD

fork positioner ZVW-G, chromed bars

fork clamp PGK, integral sideshift

dewiring clamp SPBK

pallet inverter PWK, 360°, total rotation

revolving bale clamp DPBK, 360°, total rotation

multipallet handler DPK

push pull KA

rotator DG-S

telescopic forks TGZ

BALE CLAMP TYPE PBK

optimized engineering development through the FEM analysis method

reduced lost load center, through patented oil ways

Integral sideshift fitted as standard

stable frame

various arm lengths available on request

chamfered for easy picking

excellent visibility

wear stripes welded under arms as standard

durable wear parts

- compact design gives excellent visibility
- less lost load centre results in high residual capacity
- durable design
- different backrests upon request

- constant sideshift (+/-) 100 mm upon request
- compact rotator combination option (DPBK, 360°)
- bronze profile bearings upon request
- wear stripes under frame upon request

Durwen ServicePlus-Technology

Optimised full service for bale and recycling clamps

DSP-Technology is the Durwen ServicePlus performance that gives maximum utilisation with a minimum of maintenance and repair cost.

DSP-Technology allows quick and easy parts replacement by means of bolted modular key components.

DSP-Technology means:

- ▶ many common parts
- ▶ reduced maintenance costs
- ▶ wear parts with a first rate service life
- ▶ excellent product service life
- ▶ extended maintenance intervals
- ▶ reduced maintenance work
- ▶ maximum efficiency

The Durwen ServicePlus package is based upon decades of Expertise - Know How that benefits customers because DSP-Technology is extra profit without extra costs.

DSP-Technology means short, managed maintenance intervals and reasonably priced replacement spare parts.

DSP-Technology is enhanced profit technology.
