

Harbour clamp

with constant sideshift type PHK-S or with integral sideshift type PHK

The harbour clamp PHK is used for clamping bales and boxes as well as transporting pallets. Specially shaped forks are ideal for picking of densely stacked goods. The clamp valve is built into the frame for protection and all key parts are bolted for rapid replacement. The clamp features excellent visibility.

- 2 hydraulic functions required
- includes hoses and couplings

- features bolt-on forks as standard
- toe-in on forks as standard

- with pressure relief valve on the clamp function as standard
- slip-on arms upon request only
- features protection strip with constant sideshift
